

'HOW TO'

Activities...

# Painting with bubbles!

This is a fun and simple activity you can do at home and create some beautiful pictures at the same time. It can get a little messy so we would recommend doing this outside or on something you do not mind getting messy.

## INSTRUCTIONS:

1 Mix the food colouring into the water. If you have different colours, have a different bowl for each. Use the brush to mix.

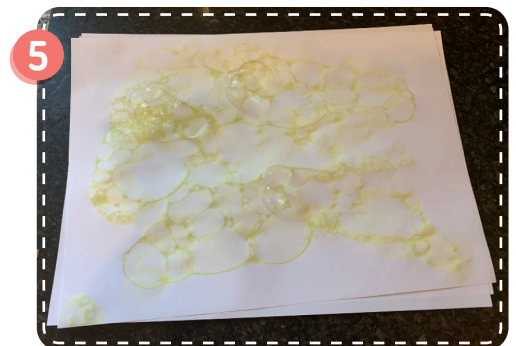

2 Add in the washing up liquid and give it a good mix.

3 Pop the straw into the water and blow. This will make HUGE bubbles!

4 Scoop the bubbles up and place them on your paper.

5 Watch the bubbles disappear and make a beautiful picture! The more colours you have, the more colourful the picture! The water also makes great paint too!!

## YOU'LL NEED:

Water

Washing up liquid

Paper

Food Colouring

Straw (optional to make bigger bubbles)

Brush (optional to mix or paint with after)
