RE: Kindred Latest Coronavirus Update

We have reviewed our procedures and processes in line with the current Government Update and have updated our procedures as follows;

- ☑ Please do not send your child into Nursery if anyone in your family home presents with a persistent cough and/or a high temperature. You must isolate the household for 14 days
- ☑ If your child presents with a persistent cough and/or a high temperature then we will be requesting that you collect your child immediately and must isolate the household for 14 days
- ☑ We will continue to focus on hand-washing at the nursery and ask that anybody entering the building washes their hands wherever possible, or makes use of the hand sanitiser in reception
- ☑ We will be working with parents to implement a drop off and collection system at the Nursery that is designed to minimise people entering the nursery
- ☑ Where possible please limit drop off and collection to one adult for each child
- ☑ We are reviewing the range of activities that we offer and how we offer them and making appropriate changes to reduce the risk to our children
- ☑ If you or your child fit into one of the vulnerable groups identified by the Government please follow their guidance. We would recommend not attending Nursery to shield yourself and/or your child

We continue to follow the Government Guidance and are taking every step we can to protect the children, families and staff in our Nursery with minimal disruption.

Please continue to keep up to date with the Government announcements here
